> If the call wants you to discuss broadly: "What crimes, if any, have D, E and F committed?"

- 1) Organize answer by each defendant's crimes and defenses, e.g., <u>D's Crimes</u>
  - Someone dies after D's action → check for <u>homicide</u>
  - D hurts, touches or scares someone → check for other <u>personal crimes</u>
  - D takes something away from someone else or intends to  $\rightarrow$  check for property crimes
  - D takes steps to do the above but doesn't complete  $\rightarrow$  check for <u>solicitation</u>, <u>attempt</u>
  - D and at least E interact at any time → check for <u>conspiracy</u>, <u>accomplice liability</u>
- o 2) Discuss affirmative <u>defenses</u> (excuses, justifications) for each defendant
- > Otherwise, answer the call; don't stray from the issue and defendant it focuses on
- > Check for available EXCEPTIONS and DEFENSES for EACH issue! There are plenty in criminal law

#### Inchoate crime: Did a crime stop at an early stage before completion?

Asking?	More than mere prep?	Agreeing with another?	Helping another?
<u>Solicitation</u>	<u>Attempt</u>	<u>Conspiracy</u>	Accomplice liability
		Pinkerton? Wharton?	Principal or accessory?

> D can be convicted of the inchoate crime **or** the completed ("merged") crime, except <u>conspiracy</u> (separate)

#### Homicide: Did someone die? Analyze each (likely "right" answer first); include key words in answer

- > Was D involved in a felony, regardless of whether he killed? <u>Felony murder</u> (1° if BARRK, 2° otherwise)
  - Was there more than one person committing the felony? <u>Co-felon liability</u>
- Express malice (premeditation and deliberation) or defined by statute (if in the facts)? <u>Murder, 1°</u>
  - Alcohol involved? Could mitigate to <u>2° murder</u> (but not manslaughter)
  - o DEFENSES (mitigate to voluntary manslaughter): imperfect self-defense, reasonable mistake of fact
- > Implied malice (where there is at least one of the four types of intent)? <u>Murder, 2°</u> (common law)
- > Heat of passion or adequate provocation? <u>Voluntary manslaughter</u> (mitigated intentional killing)
- Reckless or gross negligence? <u>Involuntary manslaughter</u>
- > Did D fail to act under a legal duty? <u>Murder</u> or <u>manslaughter</u> may arise under <u>misfeasance</u>

# Personal crime: Was there otherwise a person-to-person offense?

- > Physical contact involved (direct or indirectly)? <u>Battery</u> or <u>aggravated battery</u>
- > Assault: 2 types (check to see if either rises to <u>aggravated assault</u>)
  - D intended to commit battery? <u>"Attempted battery" assault</u> (majority)
  - D put another in apprehension? <u>"Fear of battery" assault</u> (minority)
- > <u>Transferred intent</u> between potential victims?

۶

> Moving / preventing movement of a person against will? <u>Kidnapping</u> / <u>false imprisonment</u>

### Property crime: Did someone try to take something or be somewhere they weren't entitled to?

- > Taking possession (physical control)? Larceny or larceny by trick
  - Knew or should have known the property was stolen? <u>Receipt of stolen property</u>
  - Taking title (actual ownership)? Embezzlement (already in possession) or false pretenses
- Violence or intimidation involved? <u>Robbery</u> ("larceny+")
- > Trying to or actually getting into a structure to take something or commit another felony? <u>Burglary</u>, <u>robbery</u>

# DEFENSES: Don't forget to discuss for EACH crime discussed!

- > Check available defenses particular to each crime before below general defenses
- > Know whether the crime is classified as general intent (to act) and specific intent (to act and get a result)
  - o GI? Possible defenses: involuntary intoxication, reasonable mistake of fact
    - o SI? involuntary and voluntary intoxication, reasonable and unreasonable mistake of fact
- > Some evidence of insanity at time of offense? Check the four rules for <u>insanity</u>
- D needed to act to avoid harm? <u>Duress</u> (from human forces), <u>necessity</u> (if non-human source of harm)
- > D needed to use force to avoid harm? <u>Self-defense</u>, <u>defense of others</u>, <u>defense of property</u>
